

Ms. Cindy Wu
Experiment.com
20 December 2018

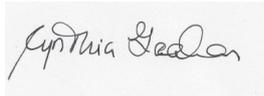

Dear Ms. Wu,

Re: Research proposal from Dr. Aiden Gregg "*Is the Scrooge Stereotype true or false?*"

I am writing with regard to the above research submission to Experiment.com in my role as Chair of the Ethics committee in Psychology and Chair of the Faculty of Environmental and Life Sciences Ethics Committee at the University of Southampton. I have read a detailed description from Dr. Gregg about his proposed research. While Dr Gregg will still need to obtain ethics approval from our committee, I can confirm that the proposal research would fall into our lowest risk category of research and is unlikely to pose any material ethical issues.

Please let me know if you have any additional questions.

Sincerely,

Cynthia A. Graham, PhD, C. Psychol.
Professor in Sexual and Reproductive Health
Chair, Faculty of Environmental and Life Sciences Ethics Committee
Chair, Psychology Ethics Sub-Committee
Department of Psychology, Room 44/3016
Faculty of Social and Human Sciences
